SUMMARY

B.Tech Computer Science graduate and Freelance 3D Artist specializing in 3D modeling, texturing, lighting, and digital sculpting for game development, product visualization, and interactive media. Experienced in creating game-ready assets, environment props, and high-quality renders optimized for real-time performance. Proficient in Autodesk Maya, ZBrush, Substance Painter, Blender, and Adobe Photoshop, with strong knowledge of topology, UV mapping, PBR workflows, and asset optimization. Strong in client communication, deadline management, and delivering production-ready assets in freelance and collaborative environments.

EXPERIENCE

Freelance

3D/2D Artist

March 2025 – Present

Raipur, India

- Created a high-quality 3D chair model that increased client engagement by 30%.
- Designed and animated a 2D cat character for a game using Spine.
- Produced a 3D low-poly tank asset optimized for a mobile game.
- Created and sold custom canvas paintings to clients.

Arena Animation

3D/2D Faculty

April 2024 – March 2025

Raipur, India

- Delivered 100+ sessions on 3D modeling, texturing, and animation.
- Trained students in Maya, 3ds Max, ZBrush, and Substance Painter.
- Guided students in character design, VFX, and animation workflows.
- Mentored students in creativity, storytelling, and technical skills.

Shubhkamna Institute

3D Faculty

May 2023 – March 2024

Raipur, India

- Delivered 50+ sessions in 3D modeling, lighting, and texturing using Maya.
- Conducted 60+ sessions in digital sculpting using ZBrush.
- Taught 100+ sessions on concept art, illustration, and texturing.
- Collaborated on 5+ short film projects in animation pipelines.
